

## Ideation Phase

### Brainstorm & Idea Prioritization Template

Date	30 October 2023
Team ID	NM2023TMID06302
Project Name	Agriculture Docs Chain
Maximum Marks	4 Marks

#### Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

#### Step-1: Team Gathering, Collaboration and Select the Problem Statement

The screenshot shows the 'Template' section of the Mural interface for the 'Brainstorm & Idea Prioritization' template. The left sidebar has a blue header 'Template'. The main area features a large circular icon with a lightbulb and wavy lines, followed by the title 'Brainstorm & idea prioritization'. Below the title, a sub-section titled 'Before you collaborate' provides instructions for preparation, including a 'Team gathering' step (10 minutes) and a 'Set the goal' step (5 minutes). A 'PROBLEM' box contains the text 'How might we design Agriculture Docs Chain System?'. To the right, a 'Key rules of brainstorming' section lists six rules with icons: Stay in topic, Encourage wild ideas, Defer judgment, Listen to others, Go for volume, and If possible, be visual.

## Step-2: Brainstorm, Idea Listing and Grouping

**Aarthi**

Identify pain points	Stakeholder interviews	Analyze existing solutions	Create requirements document
----------------------	------------------------	----------------------------	------------------------------

**Nithya Shree**

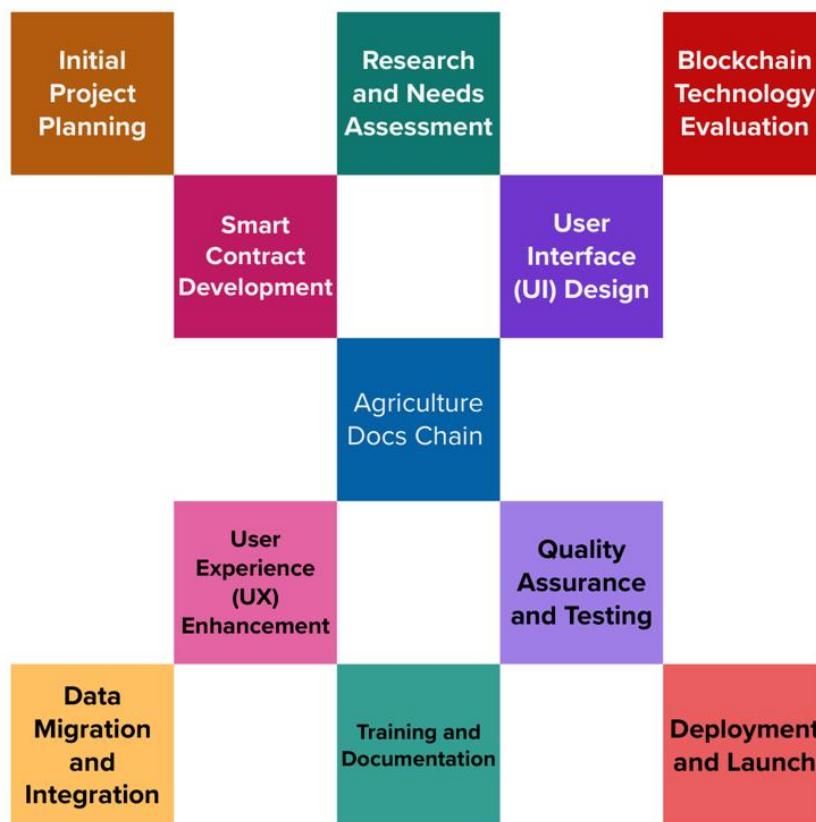

Choose blockchain framework	Develop smart contracts	Implement security measures	Scalability planning
-----------------------------	-------------------------	-----------------------------	----------------------

**Ramya**

Wireframes and prototypes	User-friendly dashboard	Responsive design	Agriculture-themed aesthetics
---------------------------	-------------------------	-------------------	-------------------------------

**Swetha**

Testing plan	Identify and rectify issues	Load testing	Collaborate with developers
--------------	-----------------------------	--------------	-----------------------------

### Step-3: Idea Prioritization
